

Kakuyasu Monthly Sales Bulletin

July 7, 2022
Kakuyasu Group Co.,Ltd.

Kakuyasu Group updates a latest monthly sales bulletin.

Figures are shown as those from Kakuyasu on non-consolidated basis.

In the meantime, they are compared with sales of FY2019 for the time being because a YoY comparison seems somewhat improper.

Sales performance compared with those of FY2019.

			Business Sales	Household Sales	Total Sales
FY2022	CY2022	April	81.4%	111.2%	89.6%
		May	83.5%	113.9%	92.2%
		June	87.1%	109.4%	93.6%
First Half of FY2022			83.6%	111.5%	91.7%
Second Half of FY2022					
Throughout FY2022			83.6%	111.5%	91.7%

The rainy season almost ended during June, which seemed to be earlier than usual nationwide, and the intense heat season has continued so far, leading to an increase demand for alcohol and beverages outside such as beer halls, entertainment facilities, etc.

Business sales were 87.1%, which have been increasing every month since this March, and are steadily recovering to those of pre-coronavirus terms.

Household sales were 109.4%, exceeding its pre-coronavirus standard, which in part resulted from additional acquisition of Kakuyasu Online Shopping members.

As a result, total sales recorded 93.6%.

cf. Sales performance on a year-on-year basis.
